🛠 Skills

- UX Design**
- Information architecture
 - Interaction design
 - Wireframing
 - Interface prototyping
- Tools**
- Figma
 - Adobe Photoshop
 - Adobe Illustrator
 - After Effects
 - Notion
 - Blender
- Web Fundamentals**
- HTML
 - CSS
 - JavaScript

📁 Design Methods

User research
Interviews
Benchmark analysis
User journeys
Prototyping
Usability testing

👉 Interest

- Animation & Motion Design**
- Passionate about animation for over 9 years
 - Experimentation with animatics and 2D motion

📄 Profile

UX/UI design student at L'École de Design Nantes Atlantique seeking a 3-month UX/UI internship in Shanghai starting October 2026. As part of the China Studio program, I will be based in Shanghai with a Chinese student visa, focusing on user-centered design, interface prototyping, and improving digital experiences through research and iterative design.

📁 Professional Experience

- **UX/UI Designer — Industry Project**
HONOR × L'École de Design Nantes Atlantique - 2026
 - Designed concepts for an **AI-powered mobile** assistant integrated into the smartphone ecosystem
 - Conducted **UX research and ideation** to explore future interactions between users and AI services
 - Developed interface **prototypes** and **interaction flows** illustrating how users could interact with contextual AI features
 - Presented design concepts and prototypes as part of a corporate partnership project
- **UX/UI Design Intern**
Aptatio — Nantes, France - Aug 2025 – Oct 2025
 - Contributed to the **redesign** of an interactive exhibition kiosk
 - Designed and prototyped tablet interfaces using **Figma** (components, navigation flows)
 - Collaborated with a **multidisciplinary team** (developers, 3D designers, engineers)
 - Helped define the **information architecture and user journey**
- **UI Designer — Innovation Project**
CHU Nantes – Hacking Health- Oct 2024
 - Applied **user-centered design** methods based on healthcare professionals' needs
 - Co-designed a concept solution with a **multidisciplinary innovation team**
 - Proposed a hybrid solution combining **physical space design and digital interface** to improve the patient experience

🎓 Education

- **Master's Degree in Design – China Studio (UX/UI)**
L'École de Design Nantes Atlantique — Shanghai, China
Expected 2026–2028
- **Bachelor's Degree in Design (UX/UI Specialization)**
L'École de Design Nantes Atlantique — Nantes, France
2023 – Present
 - User-centered design methods: user journeys, research, testing, iterative design
 - Information architecture and interaction design
 - Integration of AI in digital services and responsible design practices
